BACKGROUND

ABOUT

I have been working as a PHP web developer for several years, gaining extensive experience in web development. Recently, I have been working on projects using Python and JavaScript for about two years. My expertise encompasses the development cycle from developing responsive web applications to deploying them. I am committed to ensuring the best user experience across various devices. I am seeking a Python/React developer position.

WORK EXPERIENCE

Developer,

Jul, 2017 - Present  6 years 9 months

Paositra Malagasy is the national postal service of Madagascar. It is responsible for providing postal services and delivery of mail and packages within the country and to international destinations.
