FETRA RASOLONJATOVO
WEB DEVELOPER

👤 ABOUT

I bring extensive experience as a web developer, with a track record spanning several years. Over the last two years, I've transitioned my focus from PHP to Python and JavaScript, contributing to various projects. My proficiency covers the entire development lifecycle. I am seeking a Python/React developer position.

💼 WORK EXPERIENCE

Paositra Malagasy   Antananarivo, Madagascar
Postal Service company
🌐 https://www.paositramalagasy.mg
July 2017 – Present

Developer
Paositra Malagasy is the national postal service of Madagascar. It is responsible for providing postal services and delivery of mail and packages within the country and to international destinations.

Highlights

Developed responsive web applications ensuring user experience across devices.
Worked on front and backend development to maintain application functionality.
Designed and developed the database structure and schema.
Collaborated with designers to implement UI designs and improve frontend aesthetics.
Deployed applications to both testing and production environments, ensuring seamless transitions from development to production.
Assisted developers in coding development tasks.
Integrated and developed APIs.

Paositra Malagasy   Antananarivo, Madagascar

Postal Service company
🌐 https://www.paositramalagasy.mg
August 2016 – June 2017

Accountant

Paositra Malagasy is the national postal service of Madagascar. It is responsible for providing postal services and delivery of mail and packages within the country and to international destinations.

Highlights

Managed day-to-day financial operations.
Implemented SAGE Compta to streamline accounting operations, ensuring accurate recordkeeping, generating precise financial reports, and enhancing overall financial management.
